List of SOPs used in Blood Centre / Bank

The standard operating procedures (SOPs) used in the Blood Centre / Bank can vary depending on the specific Blood Centre / Bank and the component they produce.

It's important to note that the specific SOPs used by a particular Blood Centre / Bank may depend on the type of components they manufacture, their regulatory environment, and their specific processes and equipment.

Note: Double entry may be possible in the list for some SOPs

However, here is a general list of common SOPs used in the Blood Centre / Bank:

1. SOP for Donor Screening and Selection
2. SOP for Blood Collection
3. SOP for Blood Component Preparation and Storage
4. SOP for Blood Component Transportation
5. SOP for Blood Product Release and Inventory Control
6. SOP for Quarantine and Disposition of Blood and Blood Components
7. SOP for Equipment Maintenance and Calibration
8. SOP for Environmental Monitoring and Control
9. SOP for Handling and Disposal of Biohazardous Materials
10. SOP for Management of Adverse Reactions and Events.
11. SOP for Handling and Testing of Donor Blood Samples
12. SOP for Testing and Screening of Donor Blood for Infectious Diseases
13. SOP for Blood Product Labeling and Traceability
14. SOP for Handling and Disposal of Expired Blood Products
15. SOP for Handling and Disposition of Recalled Blood Products
16. SOP for Management of Donor Records and Confidentiality
17. SOP for Handling and Reporting of Adverse Events and Reactions
18. SOP for Handling and Reporting of Donor Deferrals and Exclusions
19. SOP for Handling and Reporting of Quality Control Results.
20. SOP for Management of Emergency Blood Requests
21. SOP for Management of Blood Product Transfusion
22. SOP for Blood Bank Inventory Management
23. SOP for Handling and Reporting of Donor Adverse Reactions
24. SOP for Handling and Reporting of Blood Product Transfusion Adverse Reactions
25. SOP for Handling and Reporting of Transfusion-related Infections
26. SOP for Handling and Reporting of Transfusion-related Acute Lung Injury
27. SOP for Management of Hemolytic Transfusion Reactions
28. SOP for Management of Febrile Non-hemolytic Transfusion Reactions.
29. SOP for Management of Delayed Hemolytic Transfusion Reactions
30. SOP for Management of Transfusion-associated Graft-versus-host Disease
31. SOP for Handling and Reporting of Transfusion-associated Circulatory Overload
32. SOP for Handling and Reporting of Transfusion-associated Dyspnea

33. SOP for Management of Massive Transfusion
34. SOP for Management of Neonatal Transfusion
35. SOP for Handling and Reporting of Blood Product Quality Issues
36. SOP for Handling and Reporting of Blood Bank Equipment Maintenance and Calibration.
37. SOP for Handling and Reporting of Transfusion-related Immunomodulation
38. SOP for Management of Platelet Refractoriness
39. SOP for Management of Rh D Alloimmunization in Pregnancy
40. SOP for Handling and Reporting of Transfusion-associated Iron Overload
41. SOP for Handling and Reporting of Donor Screening and Testing
42. SOP for Blood Donor Selection and Deferral Criteria
43. SOP for Handling and Reporting of Transfusion-associated Gastrointestinal Complications
44. SOP for Management of Blood Product Recalls and Withdrawals.
45. SOP for Handling and Reporting of Adverse Reactions to Blood Products
46. SOP for Management of Hemolytic Disease of the Fetus and Newborn
47. SOP for Management of Blood Shortages and Allocation of Blood Products
48. SOP for Management of Apheresis Donors and Products
49. SOP for Management of Blood Collection, Processing, and Distribution
50. SOP for Handling and Reporting of Transfusion-associated Infections.
51. SOP for Management of Blood Component Quality Control
52. SOP for Handling and Reporting of Adverse Events in Apheresis Donors
53. SOP for Management of Blood Product Irradiation
54. SOP for Management of Blood Product Expiration and Disposal
55. SOP for Management of Transfusion Reactions in Pediatric Patients.
56. SOP for Management of Donor Eligibility Criteria
57. SOP for Management of Donor Screening and Testing
58. SOP for Management of Donor Notification and Deferral
59. SOP for Management of Blood Product Transportation and Storage
60. SOP for Management of Blood Product Traceability and Recall.
